Dear Rose Hill Homeowner:

Your FREE MAILBOX has arrived!

Please be advised the mailboxes have arrived to the contractor. Beginning the week of May 18, 2009, Paragon Construction will be starting the replacement process of your mailbox and post. While it is difficult to give you a precise date of install on your mailbox, Paragon is hoping to install between 15 and 20 boxes per day.

You will not need to do anything special to prepare for this replacement other than enjoy your new mailbox once it has been installed. If you wish to keep your existing mailbox and post, you may do so by securing the enclosed Tyvek band around the arm of your existing box. The contractor would then place your mailbox and post on the side of your house after they install your new mailbox.

Since management will be in contact with the postal service, you should have no disruption in your mail delivery during this process. The project should be wrapped up within two weeks time, weather permitting. If you have any questions about this process, please do not hesitate to call me at 301-468-8919.

Thank you in advance for your cooperation and patience through this process!

Sincerely,

Glenn Loveland, CMCA, AMS
